7. Evaluating Progress Toward Measurable Goals MCM 2

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Our goal was to continue going door to door to interact with residents to inform them about the storm drain markings and the importance of clean stormwater in relation to our drinking water supply. A numeric goal was not set due to the uncertainty of how many residents would be home or answer the door in targeted areas.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Seventy-five (75) of the two hundred and sixty (260) attempts had individuals answer the door and listen to the information being presented. Those that were spoken with for the most part were receptive to the concepts. Each house also received a pamphlet explaining the purpose of the decals whether they answered the door or not.

C. How many times was this observation measured or evaluated in this reporting period?

75

D. Has your MS4 made progress toward this measurable goal during this reporting period?

○ Yes  ○ No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

○ Yes  ○ No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

We hope to continue with this program in the next calendar year. We also hope to include literature dissemination totals of brochures delivered to residents who live along streams and waterways.

12. Evaluating Progress Toward Measurable Goals MCM 3

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Since the beginning of the original 5 year permit period, the Town of Ramapo has been flushing our sanitary trouble areas to prevent sewer blockages and resulting sewer discharges. We have reached our goal of flushing at least 5 miles in each of the past 13 years. This year we flushed 7.7 miles in Unincorporated Ramapo.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

This activity has been effective in pro-actively removing grease and paper buildup on the inner walls of our sewer lines. We see this working every day by virtue of the reduction of call outs we receive reporting blockages both during and after work hours.

C. How many times was this observation measured or evaluated in this reporting period? (ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

○ Yes  ○ No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

We intend to continue flushing a minimum of 5 miles of sanitary sewers during the next reporting year.

7. Evaluating Progress Toward Measurable Goals MCM 4

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Our measureable goal is to review 100% of the SWPPPs that enter our Office for compliance with NYSDEC and local requirements.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

This measure is very effective because most of the SWPPPs submitted need to be reviewed multiple times to be compliant. Ed Moran reviews the plans for the most part on behalf of the Town. Without these multiple reviews, propose plans will likely be designed incorrectly in terms of function and size.

C. How many times was this observation measured or evaluated in this reporting period?

11

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

○ Yes  ○ No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

○ Yes  ○ No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

Next year we again anticipate reviewing all of the SWPPPs that are submitted to the DPW Office.

6. Evaluating Progress Toward Measurable Goals MCM 5

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Our measurable goal was to continue documenting projects in which SWPPPs are required and to perform final inspections on the water quality devices when the Notices of Termination are to be filed. It was also to clean out the one organic filter the Town owns and begin maintenance on the stormwater ponds that were recently transferred to us.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Our master spreadsheet has been updated so it’s easy to see all of our projects in one file. We continue to maintain our digitally organized weekly reports on E&SC inspections on those projects that have greater than an acre of disturbance.

C. How many times was this observation measured or evaluated in this reporting period?

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes  No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes  No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

Our goal is to continue documenting the projects that require SWPPPs. We will perform final inspections on those projects that are looking for their Notices of Termination. We will also continue to maintain our organic filter as least quarterly and put our new ponds on an inspection schedule.

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program (SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.

7. Evaluating Progress Toward Measurable Goals MCM 6

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The measurable goal was to sweep seventy-five (75) miles of roadway in Unincorporated Ramapo in the reporting year. Unfortunately due to mechanical problems with the street sweeper we only able to sweep forty-six (46) miles in Unincorporated Ramapo. Only one sweeper is operational.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

By continuing to sweep a significant amount of miles, less sediment and trash is deposited in our catchbasins that flow into our water bodies.

C. How many times was this observation measured or evaluated in this reporting period?

1

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

○ Yes  ○ No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

○ Yes  ● No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

If the Town does not purchase a new street sweeper our totals will likely hover around fifty (50) miles. At one point we had 3 operational sweepers. The Highway Dept. is down to only one.
